“S” in Trans. Type column denotes the same colorant loading in all thicknesses.

**Disclaimer:** Colors shown are representations only and actual color of acrylic product may vary from the chart. Numbers shown were selected comparing product color as viewed against a white background using cool white fluorescent lighting. Computer monitors produce varying accuracy in rendition of shades. Color perception is affected by surface characteristics or treatment and lighting conditions. For best results, request a product sample and select color under natural daylight or within the setting where finished product will be installed.
