

Application Story

ACRYLITE® Satinice

Brilliant choice for visual impact, sound and technology

Market Segment

Electronics and communication

Location:

Germany

Product:

ACRYLITE® Satinice White velvet texture
10mm thickness

Fabricator:

Glacryl Hedel GmbH
<http://www.glacryl.de>

Selection criteria:

Due to its high internal damping (low intrinsic resonance), ACRYLITE® is especially suitable for sound-conducting elements.

Description of application

The modular loudspeaker system "Salon" combines perfect sound reproduction with functional yet aesthetic design. The patented design of the ACRYLITE® modules adds an element of distinction that makes the difference between simply listening to music and experiencing it to the fullest. Developed and handmade in Germany, The Wolf von Langa brand represents the ultimate in sound aesthetics.
